POPULAR MECHANICS INDEX—1977

This Index covers every article that appeared in the 1977 issues of *Popular Mechanics,* including the short items in monthly features such as "The PM Garage" and "PM Workbench." (For the convenience of our advertisers, we publish regional editions of *PM.* On rare occasions this may result in the deletion of a minor article in a certain edition.)

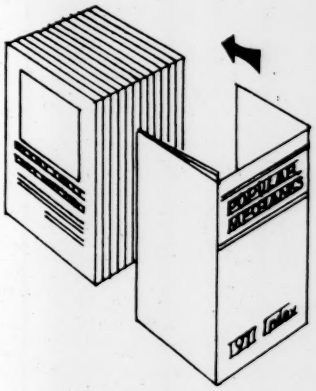
The Index is thoroughly cross-referenced. For example, you will find an article on how to cane a chair seat listed under "Chairs," "Caning," and "Furniture." Broad categories such as "Motorcycles," "Solar energy," and "Woodworking" enable you to locate all articles on a general subject published throughout the year.

IMPORTANT NOTICE: ***Italicized*** **entries indicate articles of how-to nature—how to make, build, maintain, repair, use, etc. Entries in Roman (regular) type are for articles of general information, covering events, achievements, new products, etc.**

Both how-to and general articles on the same subject are indexed under one heading. Thus under "Bicycles" you will find *italicized entries for articles on bike repair, motorizing, tune-up,* etc., as well as entries in Roman type for articles on odd bikes, new gear, etc.

An Index entry marked JE-89 indicates the article appeared on Page 89 of the June issue. The following abreviations are used:

JA	January	JY	July
FE	February	AU	August
MR	March	SE	September
AP	April	OC	October
MY	May	NO	November
JE	June	DE	December



To use your Index as a shelf binder: The cover of the Index is made and folded so that it exactly encompasses the 12 issues of 1977, thus providing an attractive shelf binder. To use your Index as a shelf binder, face the shelf and insert the *short tab* of the Index on one side of the accumulated issues, and the *stapled fold* on the other side (see illustration). If you prefer, of course, the Index can simply be folded flat and filed on a bookshelf with the 1977 issues of *PM.*

Separate Indexes for the years 1971 through 1976 still are available for $2.69 *each* from *Popular Mechanics,* Box 1014, Radio City Station, New York, N.Y. 10019. Indexes for earlier years are not available.
